

# Code42 Next-Gen Data Loss Protection

Code42 Next-Gen DLP delivers powerful file visibility, retrieval and retention capabilities through a single, centralized view.

## FOCUSED ON FILES

### UNIFIED FILE VISIBILITY

See file activity across endpoints and cloud services to speed investigations.

### FAST FILE RETRIEVAL

Restore file contents for analysis or recovery from incidents in minutes.

### LONG-TERM FILE RETENTION

Keep files for as long as needed to support legal and compliance needs.

## AGILE DATA SECURITY

Code42 Next-Gen DLP deploys in days to quickly address key data security challenges.

- Detect insider threats
- Help satisfy regulatory compliance
- Speed up incident response
- Ensure business continuity

## CORE CAPABILITIES

### COLLECT

Automatically collect and store every version of every file across all devices. Index all file activity across devices and cloud storage.

### MONITOR

See files being moved by users to external hard drives or shared via cloud services.

### INVESTIGATE

Triage and prioritize data threats by searching file activity across cloud services and all devices, even when they are offline.

### PRESERVE

Retain files for all employees, for as long as the files are needed to satisfy data retention requirements related to compliance or litigation

### RECOVER

Rapidly recover lost, deleted and ransomware files.

*"Code42 Next-Gen DLP gives us a complete view of everything that happens to our data, including... vulnerable endpoints such as PCs and laptops. And if people upload to the cloud, we can see what they took and with whom they shared it."*

– **MACOM**

*"One of the biggest benefits of having Code42 is the fact that we're no longer at risk of data loss, which leads to lost time, money, and faith in our company."*

– **MacDonald-Miller**

*"Our data security needs have expanded significantly in recent years due to acquisitions. It's important to our business that the data security programs we deploy make it easy to protect our intellectual property portfolio as it grows."*

Code42 is the leader in data loss protection, visibility and recovery solutions. Native to the cloud, the Code42 Next-Gen Data Loss Protection solution rapidly detects insider threats, helps satisfy regulatory compliance requirements and speeds incident response — all without lengthy deployments, complex policy management or blocks on user productivity. Security, IT and compliance professionals can protect endpoint and cloud data from loss, leak, misuse and theft while maintaining an open and collaborative culture for employees. Founded in 2001, more than 50,000 organizations worldwide, including the most recognized brands in business and education, rely on Code42 to safeguard their ideas. The company is headquartered in Minneapolis, Minnesota, and backed by Accel Partners, JMI Equity, NEA and Split Rock Partners.
